

## A Few Kind Words From Our Most Recent Clientele

Francesca Morgan was a joy to work with. After she walked into our house and looked around, she sat down and listened to us. From then on it was a blending of ideas, designs and colors. From sketched designs we were able to throw ideas back and forth. There were never too many fabrics, swatches or colors for her to share. After we were all on the same page, she then really went to work for us. Her coordination between ordering, pricing, scheduling workers made our lives easy. And the best part was—the finished product! We couldn't be happier!

What a pleasure it has been to work with Francesca Morgan. It is as if a magic wand has touched our house and turned it into a home! She oversaw the project with a discriminating eye and meticulous attention to detail while we were away. The choices of colors and fabrics were broad without being overwhelming. The creative touches gave a “wow” factor I could have never imagined. Thank you so much!

It has been a delight working with Francesca these past six years. Once you express your preferences and ideas to her, which provide her with an understanding of the look that you wish to achieve, she will offer you many suggestions of designs, fabrics, furniture, window treatment, wall colors, accessories, etc. that are exactly what you had in mind. Francesca is perceptive of your needs and will stay within your budget limits. Most importantly, she is easily accessible and extremely trustworthy. She will guarantee your purchases from her. My husband and I are quite pleased with Francesca's "touch" and receive many compliments on the beauty of our home. Thank you, Francesca Morgan.

We have worked with Francesca on several projects, in our home and on our boat. Her sense of color and style have always been “spot on” and we look forward to more projects with her in the future. Also, on the rare occasion that there was a snag or problem, she corrected it without delay or inconvenience to us. That’s almost as important as the right color!

When we walked into what is usually a dining area of our villa, my husband looked at Francesca and said “I’d like a gallery of our paintings there.” She lit up immediately and we all knew where to go from there. We’ve been in our place for enough time to enjoy our old and new. Colors, placement of our other paintings and brie-a-brae have all added to our enjoyment. It was a tough move, but Francesca and her able bodied assistant Patricia came to our rescue.

While touring the 2010 Children's Home Society Cashel Designer Showcase, I fell in love with the master suite. Upon meeting the designer, Francesca Morgan, I invited her to my home for advice on decorating my master suite. She worked closely with us putting together a stunning package including new wall colors, custom spread, custom window coverings, and reupholstering a bench. She was also very helpful giving us suggestions throughout our home. It was a pleasure working with her.
